

NEW PacHealth®

PacHealth® gives shippers a clear understanding of their packing performance, to remain compliant, stay competitive, and reduce risk. This tool makes it easier for businesses to identify key areas for improvement, save on costs, and reduce their environmental impact, all within the Paccurate platform.

$$\text{Cost Score} + \text{Efficiency Score} + \text{Green Score} = \text{PacHealth Score}$$

-  Clear understanding of daily packing performance to monitor trends or changes
-  Evaluate KPIs such as volume utilization, items per box, and boxes per order daily
-  Measure performance score based on costs, efficiency, and green metrics
-  Identify issues quickly to mitigate risk
-  An essential tool for your cartonization journey
